

AI Training Expansion Act

H.R.4503, 118th

REPORTED OUT OF COMMITTEE

Rep. Mace (R-SC)
Workforce & access · U.S. House

HOW FAR IT WAS CARRIED

Committee vote, 12 July 2023

BACKGROUND

The federal government buys and deploys AI systems through officials who were never trained to evaluate them. This bill extends the existing federal AI training requirement to the managers and procurement staff who actually make those decisions, covering capabilities, risks, privacy exposure and bias. It was reported out of committee 39 to 2.

KEY PROVISIONS

- Requires the Office of Management and Budget to establish an AI training programme for federal management officials.
- Extends coverage to procurement and acquisition staff who evaluate AI systems.
- Requires the curriculum to cover capabilities, limitations, and known failure modes.
- Requires specific instruction on privacy risk and bias in deployed systems.
- Directs periodic updating of the curriculum as the technology changes.

BY THE NUMBERS

39–2 Committee vote, 12 July 2023
