

Jobs of the Future Act of 2023

H.R.4498, 118th

INTRODUCED

Rep. Soto (D-FL)
Workforce & access · U.S. House

HOW FAR IT WAS CARRIED

INTRODUCED

COMMITTEE

FLOOR VOTE

ENACTED

BACKGROUND

Workforce policy was being argued from anecdote because nobody had measured what AI was actually doing to employment. This bill commissions the measurement: a joint Department of Labor and National Science Foundation study of which occupations, industries and demographic groups are being affected, and what training would answer it, reported to Congress on a fixed schedule.

KEY PROVISIONS

- Directs the Department of Labor and the National Science Foundation to report jointly on AI’s workforce impact.
- Requires analysis by occupation, industry, and demographic group.
- Requires assessment of which skills and training programmes are needed in response.
- Directs attention to workers displaced rather than only to jobs created.
- Sets a reporting deadline to the relevant congressional committees.

LEGISLATIVE RECORD

Introduced 6 July 2023.

OFFICES ENGAGED

Reps. Blunt Rochester, Soto
Drafted and advised. 2 offices engaged.
